UNDERSTANDING THE BIG PICTURE

Incline Industrial is your turnkey partner for custom millwright services, heavy equipment rigging and steel fabrication. Whether you're installing new equipment or integrating a new production line, Incline will orchestrate accuracy and excellence in your next project.

Our experience and capabilities have given us a big-picture vision for production lines. For over 25 years we have worked with capital equipment of every major manufacturer, obtaining the knowledge to make your line work together better. But we don't stop there. We can fill in the processing gaps, custom fabricate your material handling systems, elevated walkways, conveyors, and feeders – whatever solution is needed to get the most out of your production processes.

MILLWRIGHT SERVICES WITH A DEPTH OF EXPERIENCE

We specialize in single machine installations to complete plant installations and relocations. Installation of delicate production equipment is a complex job that requires experience and expert management. Incline construction through precision planning and execution has delivered hundreds of projects on time and within budget. We take pride in our reputation for meeting customer needs.

Whether designing and planning your project, or working from your plans, we will meet your expectations head on. When there are perceived challenges, we will provide the right solutions. When there is a need for improvement, our proven expertise will provide a path. When your line needs enhancements, our fabrication talents can be put to the task.

INCLINE MILLWRIGHT VAST SERVICES INCLUDE:

- Engineering
- Metal Fabrication
- CNC and Plasma
- Welding
- Permitting
- Rigging
- Installation
- Plumping and hydraulics
- Alignment
- Testing
- Maintenance
- Repair

MACHINE RIGGING & PRODUCTION OPTIMIZATION

Having loaded, moved, unloaded, and installed machines weighing more than 100 tons, the Incline team has extensive machine rigging expertise. Across the plant floor or the country, rigging is not just a go-by-the-book skill, it's a unique skill that requires experience. And, Incline has an extraordinary rigging portfolio. Through precision planning and execution, we've delivered hundreds of projects on time and on budget while adhering to OSHA and related safety protocols, with an ongoing commitment to safety.

OUR FACILITY IMPROVEMENT AND OPTIMIZATION SERVICES INCLUDE:

- Industrial engineering
- Rigging and crane work
- Rooftop unit support frames
- Skid installation/startup
- Structural construction
- Production line integration
- Commissioning and validation
- Process and utility piping

EQUIPMENT FABRICATION & STRUCTURAL WELDMENTS

Our fabrication experts comprise of a diverse team of welders, machinists, and fabrication craftsmen who take great pride in giving form and function to sheet metal, stainless steel and iron. We can build to print or engineer a solution whether fabricating in the shop or in the field. Our manufacturing facility houses the equipment required for complete fabrication and finishing.

A FEW OF OUR SPECIALTIES INCLUDE:

- Processing platforms
- Access platforms
- Stairways and walkways
- Material hoppers and bins
- Conveyors
- Mixing tanks
- Machine bases
- Replacement parts

PLATFORMS & CROSSOVERS BUILT FOR ACCESS. DESIGNED FOR SAFETY.

Platforms, mezzanines, and crossovers are essential to maintaining safe, efficient, and accessible production environments. Incline designs and fabricates custom structures that integrate seamlessly into your operation while supporting the demands of your process.

Our team understands how these structures function within real production environments—not just as standalone builds, but as critical components that enable safe movement, maintenance access, and operational efficiency.

From concept through installation, every solution is built to meet your specifications, your environment, and your timeline.

MAINTENANCE & REBUILDS RESTORE PERFORMANCE. EXTEND EQUIPMENT LIFE.

When equipment performance declines or unexpected issues arise, the impact on production can be immediate. Incline provides comprehensive maintenance and rebuild services to restore functionality, improve reliability, and keep operations moving.

Our team works directly within your facility to diagnose issues, execute repairs, and rebuild equipment to meet current production demands. Whether supporting planned maintenance or responding to critical situations, we bring the experience and responsiveness needed to minimize downtime.

We don't just repair equipment—we help improve how it performs within your overall process.

STORAGE & TRANSPORTATION MANAGED FROM ARRIVAL TO INSTALLATION

Successful installations begin long before equipment reaches your facility. Incline provides secure storage, staging, and transportation solutions to ensure your equipment is protected, organized, and delivered on schedule.

We coordinate the entire process from receiving and storage to final delivery so your project stays aligned and installation timelines remain intact.

Because we understand how equipment is installed, we manage how it is handled, staged, and transported with that end goal in mind.

PRODUCTION LINE INSTALLATION. INTEGRATION. OPTIMIZATION.

Modern manufacturers are under constant pressure to improve throughput, efficiency, and flexibility across their production lines. As operations become more advanced, success depends on the ability to integrate equipment, processes, and systems into a cohesive, high-performing environment.

Incline Industrial Services partners with manufacturers to install, reconfigure, and optimize production lines for maximum performance. From new equipment integration to complete line modifications, we bring the experience and execution required to deliver efficient, reliable solutions.

Our team works across a wide range of industries and processing environments, applying practical knowledge to ensure every system works together safely, efficiently, and as intended.

CUSTOMER COLLABORATION: OUR TEAM IS YOUR TEAM

Our engineers and project managers bring deep experience across a wide range of manufacturing environments and production systems. In collaboration with your production team or facility managers, we help identify potential challenges early and develop practical solutions that improve both technical outcomes and project efficiency.

When engaged early in the process, we provide valuable insight into equipment selection, layout, and integration helping ensure your production line performs as intended from day one.

WHERE SAFETY COMES FIRST

At the core of all projects, safety is of the utmost importance. We use stringent protocols and procedures to ensure we are performing at the highest level of safety. From planning through execution, we work with your team every step of the way.

PRECISION FABRICATION STANDARDS

Our stainless steel fabrication (304, 304L, 316) and integration services meet strict industry and sanitary standards where required. Through precision welding, finishing, and surface treatment, we support applications that demand cleanability, durability, and compliance with regulatory requirements.

ASK OUR CUSTOMERS ABOUT HOW INCLINE ELEVATES PRODUCTION LINE PERFORMANCE

Our customers span a wide range of manufacturing industries, each with unique production challenges and performance goals. What they share is a need for a partner who understands how equipment, processes, and timelines must come together to keep operations running smoothly.

Incline is known for delivering practical, execution-focused solutions from fabrication and installation to full production line integration. Our team brings hands-on experience across complex processing systems, material handling, and equipment installation helping customers improve efficiency, reduce downtime, and optimize performance.

WHY CHOOSE INCLINE INDUSTRIAL?

EXPERIENCE + TURNKEY SERVICE = ORCHESTRATED EXCELLENCE

We understand that every project has its own set of goals and priorities. Whether installing, moving, or fabricating, our customers have confidence in our ability to render the highest level of professional service and 'know-how' to every job. Large or small, from start to finish, we are driven to provide the results you need to meet your goals.

The efficiency you'll gain from our single-source capabilities brings tremendous value to the table. What's more, our close-knit team assures you of consistent, first name customer service and accountability that will cement long-term relationships.
